Exhilaration every day. Introducing Focus ST.

Aero-crisp. Sure-footed. Smart. Inspired. Ford Focus has it all, including the admiration of some of the toughest critics in the world. In a single year, Focus was named “Best Car to Buy 2012” by TheCarConnection.com, “One of the 10 Best Cars of 2012” by Car and Driver, and one of AUTOMOBILE Magazine’s 2012 All-Stars. This year, with the addition of the exhilarating Focus ST hatchback, there's more to love. We've taken all of the fun-to-drive attributes of Focus — and pushed them even further. ST is more dynamic. More powerful. More addictive. With a high-tech cockpit that encourages you to lay the power down. Like every 2013 Ford Focus, it's so much more than just a car. Go further in a 2013 Focus.
Handles fuel with care.

Every drop is effectively used in Focus, from its convenient entry through the Easy Fuel® capless fuel filler to its efficient use in the 2.0L I-4 engine. Twin independent variable camshaft timing (Ti-VCT) adds extra precision, contributing to fuel efficiency or power output. Electric power-assisted steering (EPAS), whose electric motor operates only when assistance is required, contributes to fuel efficiency as well. And Active Grille Shutters help Focus make itself even more aerodynamic and fuel efficient. This all helps Focus SE with the SFE Package¹ achieve up to 40 mpg hwy² letting you pass the pump and keep on driving.

¹Available feature. ²EPA-estimated 28 city/40 hwy/33 combined mpg, Focus SE automatic with SFE Package.
Grabs the road. As well as plenty of attention.

**Responds with precision.**

“The Focus feels alive, with sweet steering and a sporty ride...” says TheCarConnection.com. Credit its responsive handling – especially in the corners – to standard Torque Vectoring Control and a sport-tuned suspension! Supplying precise response at highway speeds and ideal maneuverability at slower speeds, electric power-assisted steering (EPAS) constantly measures steering input, enhancing control. So get ready to turn some heads – including your own.

**Performs with authority.**

A cool, precise charge of fuel, thanks to direct injection. Efficient performance throughout the rpm range from self-adjusting twin independent variable camshaft timing (Ti-VCT). This recipe supplies ample low-end torque and peak power when you redline all 160 hp of the 2.0L I-4 engine. And with a car that handles this well, you certainly will.

A PowerShift 6-speed automatic transmission delivers torque to the wheels 100% of the time during shifts, supplying excellent responsiveness. Titanium includes SelectShift Automatic capability to change gears at the touch of a button. For those who like to do the gear changing themselves, Titanium can also be equipped with a 5-speed manual transmission.
Storms out of the gate.

And never looks back. Everything about the new Focus ST\(^1\) is geared to get you to your destination. Quickly.

Mash the aluminum accelerator pedal and you’ll be treated to the rollicking performance of its 252-hp;\(^2\) high-output 2.0L EcoBoost\(^\circledR\) I-4 engine that’s linked to a 6-speed manual transmission. An “overboost” feature can sustain increased torque (from 3,000 rpm to 4,500 rpm) for 15 seconds at a time, enhancing its performance feel. To further amplify your aural experience, engineers channeled the lower-engine frequencies of this signature sound into the cabin. Other ST upgrades include variable-ratio electric power-assisted steering, disc brakes with performance pads at all 4 corners, a unique sport suspension, dramatic center tailpipes, eye-catching 18\(^{\text{th}}\) Y-spoke painted aluminum wheels and exclusive Tangerine Scream Metallic Tri-coat paint.

Inside, you’re the center of the action in its performance-minded cockpit. Enter and start it without using your key. Survey your instrumentation from RECARO\(^\circledR\) partial- or full-leather-trimmed front seats.\(^3\) Grip the unique leather-wrapped steering wheel with ST badge. Monitor the mini cluster gauges, including turbo boost, as you charge out of the corners. In Focus ST, there’s no reason to hold anything back.

\(^1\)Coming late 2012. \(^2\)Figures achieved using premium unleaded fuel. \(^3\)Available feature.
Connects you best to what matters most.

Named “Connected Car of the Year 2012.”

Staying in touch is easy in Connected World magazine’s “Connected Car of the Year 2012.” With voice-activated Ford SYNC, the system recognizes your paired phone and downloads your contacts to support voice calling. It also plays music from your phone, MP3, USB or iPod. In fact, SYNC AppLink lets smartphone users control Pandora, iHeartRadio, Stitcher Smart Radio and other apps by voice too. Just touch a steering wheel button and say things like “Call: Melissa,” or “Play genre: Pop.” SYNC also offers 911 Assist and with an activated subscription to SYNC Services you get business searches, turn-by-turn driving directions and more. Personalize yours at ford.com/sync.

To amplify your experience, upgrade to SYNC with MyFord Touch. An 8” LCD touch screen, media hub, 4.2” instrument cluster screen, and familiar 5-way steering wheel controls give you mastery of your phone, entertainment, navigation and climate. The system recognizes over 10,000 voice commands — everything from “Destination: nightlife” to “My team’s schedule.” There’s almost no limit to what you can do, all with your hands on the wheel and eyes on the road. All this, in addition to a 6-month trial subscription to over 130 channels of unique content from SiriusXM Satellite Radio.
Raises your expectations.

You’ll be amazed at all that Focus has to offer inside. “When it comes to luxury and entertainment features, Focus goes well beyond state of the art,” says TheCarConnection.com. Luxury comes in the form of leather-trimmed seats, dual-zone electronic automatic temperature control and 2 Interior Style Packages (in Tuscany Red or Arctic White) that feature two-tone leather-trimmed seats, matching door-trim inserts, coordinated steering wheel trim and more. For entertainment, there’s SYNC® with MyFord Touch® and ambient lighting. Enjoy it all from a cockpit that was designed to help you conquer the road. “... the Focus front seats are uncommonly good,” says automobilemag.com. “Comfortably and fantastically supportive, they give your back the clear message that the Focus wants to dance.”

Available feature.
Virtually parks itself.

Talk about stress reduction. First, simply press a button and active park assist\(^1\) alerts you when it has located an appropriate parallel parking spot. Then, take your hands off the wheel and Focus literally steers itself into place. All you have to do is follow system prompts to shift gears and control the brake and accelerator pedals. In practically no time at all, you’ll be parked and ready for action. Stress-free.
Plays just one thing safe. Your safety.

Travel with confidence knowing that Focus was named a “2012 Top Safety Pick,” the highest possible rating from the Insurance Institute for Highway Safety (IIHS). After all, the thrills, exhilaration, technology and handling it provides mean little without safety. That’s why Focus is engineered so that every element plays a part in helping keep you safe – from seats and airbags to steel and body. It’s safety you can depend on.

Expects the unexpected.

More than half of the Focus body structure is made from high-strength and ultra-high-strength steel, with critical occupant safety zones reinforced with lightweight yet incredibly strong boron steel.

The next-generation, dual-stage front airbags of the Personal Safety System™ feature optimized driver’s side tethering. A driver’s knee airbag inflates between the knees and instrument panel in a crash. An adaptive tunnel vent helps tailor the front-seat side airbags to occupant size for personalized protection, while side-curtain airbags with roll-fold technology increase peace of mind by deploying to cover both rows of the vehicle. That’s 7 total airbags.

AdvanceTrac® electronic stability control with brake-actuated traction control automatically helps avoid skidding and fishtailing, helping you keep all 4 wheels firmly planted in inclement weather. To help ensure the tires stay properly inflated, the Tire Pressure Monitoring System (TPMS) alerts you when any tire’s pressure is low, giving you time to get help if needed.

1Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions.
With Focus, there are plenty of features that help you make it your own. Socially active? Reinforce your life-of-the-party status with unique interior lighting and a power moonroof. Have teenage drivers? Feel more secure knowing every Focus features the standard Tire Pressure Monitoring System (TPMS), and can be equipped with available MyKey®. It’s your Focus. Make sure it reflects your wants and needs.

*Coming late 2012. **Additional charge. Colors are representative only. See your dealer for actual paint/trim options.
New Vehicle Limited Warranty. We want your Ford Focus ownership experience to be the best it can be. Under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/60,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage – all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty.  

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle or need towing. Your Ford Dealer can provide complete details on all of these advantages.  

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.  

Ford Extended Service Plan. For a purchase or lease, the Ford Extended Service Plan (ESP) gives you “Peace-of-Mind” protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for a Ford ESP, the only service contract backed exclusively by Ford and honored at all Ford Lincoln dealerships.  

Genuine Ford Accessories will be warranted for whichever provides you the greatest benefit: 12 months or 12,000 miles (whichever occurs first), or the remainder of your Bumper-to-Bumper 3-year/36,000-mile New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer’s warranty. FLA are fully designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Ford Dealer for details and/or a copy of all limited warranties.
