2013 FUSION | FUSION HYBRID
FUSION ENERGI
One look leaves you wanting.

How can we be so confident? Just take a peek. Its shape is surprisingly different. Arrestingly sleek. We analyzed every edge and line and performed hundreds of hours of wind-tunnel testing to improve aerodynamics – rendering the all-new 2013 Ford Fusion almost undetected by the air it slips through. The same can’t be said for everyone else.

Eyes are irresistibly drawn to its swept-back silhouette, along its shapely curves, ending with its radiant LED tail lamps and flush-mounted tailpipes. And that’s just the beginning.

With the all-new Ford Fusion, you have the choice to power your vehicle in a way that best fits your lifestyle. Whether you choose one of our advanced gasoline engines, a hybrid powertrain, or our all-new plug-in hybrid model, Fusion delivers more than you ever expected. Yet exactly what you need.

The all-new 2013 Ford Fusion, Fusion Hybrid, and Fusion Energi Plug-in Hybrid. Three distinct choices. One remarkable sedan. Which is right for you?
Increases efficiency with advanced EcoBoost technology.

And more. Our turbocharged, direct-injection EcoBoost® gasoline engines, featuring instantaneous low-end torque responsiveness and virtually no turbo lag, squeeze maximum power and efficiency from each drop of fuel. On Fusion, we’ve paired our 1.6L EcoBoost with Auto Start-Stop. This new feature shuts off engine power when Fusion comes to a complete stop and seamlessly restarts it as you release the brake pedal, helping to reduce fuel consumption. Choose a 6-speed manual or 6-speed SelectShift Automatic transmission, and Active Grille Shutters that adjust to improve aerodynamics. These advanced technologies help Fusion achieve 5.3L/100 km hwy (53 mpg) and 8.0L/100 km city (35 mpg). A 175-hp 2.5L IVCT 4-cylinder engine with 6-speed SelectShift Automatic is the base engine that rounds out an impressive gasoline engine lineup.

For performance-minded drivers. A 240-hp 2.0L EcoBoost 4-cylinder engine is paired with a 6-speed SelectShift Automatic that can be paddle shifted. Intelligent all-wheel drive can also be added on SE models equipped with the 2.0L EcoBoost engine. As you accelerate through corners, Torque Vectoring Control on all models seamlessly enhances your hold on the road.

### 1.6L EcoBoost 4-cylinder gasoline engine
- 6-speed manual transmission
  - Horsepower: 178
  - Torque (lb.-ft.): 184
  - 8.0L/100 km city (35 mpg)
  - 5.3L/100 km hwy (53 mpg)

### 6-speed SelectShift Automatic
- Horsepower: 178
- Torque (lb.-ft.): 184
- 8.7L/100 km city (32 mpg)
- 5.5L/100 km hwy (51 mpg)

### 2.0L EcoBoost 4-cylinder gasoline engine
- 6-speed SelectShift Automatic
  - Horsepower: 240
  - Torque (lb.-ft.): 270
  - FWD: 9.2L/100 km city (31 mpg)
  - 5.9L/100 km hwy (48 mpg)
  - AWD: 9.5L/100 km city (30 mpg)
  - 6.3L/100 km hwy (45 mpg)

### 2.5L IVCT 4-cylinder gasoline engine
- 6-speed SelectShift Automatic
  - Horsepower: 175
  - Torque (lb.-ft.): 175
  - 9.2L/100 km city (31 mpg)
  - 5.9L/100 km hwy (48 mpg)

SE. Ruby Red Metallic Tinted Clearcoat. Available equipment.

Strengthens its hybrid fuel efficiency leadership.

Yes, it's true. Building upon the award-winning success of the 2012 model, the all-new 2013 Fusion Hybrid achieves a best-in-class 4.0L/100 km city! Our powersplit hybrid architecture helps maximize efficiency by seamlessly switching between the electric traction motor and its 2.0L Atkinson-cycle gasoline engine. Powered by state-of-the-art lithium-ion batteries, the traction motor allows Fusion Hybrid to operate gas-free at speeds of up to 100 km/h. When you're accelerating at speed or passing, the 2.0L engine kicks in as needed to power the battery and to enhance performance. Finally, the Regenerative Braking System captures over 90% of brake energy, and uses it to help recharge the battery and maximize your distance. Even when you're stopping, you're moving forward in Fusion Hybrid.

Fusion Hybrid 3rd-Generation Powertrain
- New 2.0L iVCT Atkinson-cycle 4-cylinder engine
- New lithium-ion battery pack
- 88-kW electric traction motor
- Electronically controlled continuously variable transmission (eCVT)
- Total system net horsepower: 188
- 4.0L/100 km city (71 mpg); 4.1L/100 km hwy (69 mpg)\(^1\)
- Up to 100 km/h in EV mode

These vibrant leaves on the SmartGauge™ with EcoGuide instrument cluster coach you to get the most from every ride. The less fuel you use, the more lush your vine – giving you visual feedback to help you improve your efficiency.
Isn’t it time you Plug-In?

Who doesn’t want to drive a plug-in hybrid sedan that can run entirely on electric power at up to highway speeds?

After recharging overnight using its LED-illuminated charge port and standard 120-volt outlet, the 2013 Fusion Energi Plug-in Hybrid\(^1\) starts as an all-electric vehicle. Running in electric (EV) mode, the car constantly measures the battery state of charge and your driving conditions, and chooses the most efficient mode of operation – either continuing to run on battery power or turning on the 2.0L Atkinson-cycle gas engine as needed. On short city trips and in stop-and-go traffic, Fusion Energi may run all electric and use no gasoline.

To reduce your charging time, the ULC-approved, weather-resistant Leviton\(^2\) 240-volt home charging station is recommended by Ford. Ask your local Ford of Canada Certified Electric Vehicle (EV) Dealer how our friends at Best Buy’s Geek Squad will facilitate a hassle-free installation.

Stay connected and informed.

Our award-winning MyFord\(^3\) Mobile app\(^4\) and website make it easy to monitor and schedule charging. Preconditioning helps maximize your battery range by raising or lowering the cabin’s temperature while the vehicle is still charging, without depleting the charge from the battery. Charge-status updates keep you in the know. The MapQuest\(^5\) trip planner supplies the most efficient routes to charging stations. Value Charging, powered by Microsoft\(^6\), can even help you save by charging during your local utility’s lower off-peak rate times\(^7\).

\(^1\)Coming early 2013. \(^2\)Available feature. \(^3\)MyFord Mobile subscription complimentary for 5 years. Subscription fees apply after 5 years. \(^4\)Based on your local utility’s participation.
Reshapes expectations, outside and in.

More than you expected. That’s what we designed Fusion to deliver on every drive. Soft-touch surfaces greet your hands wherever they rest, including on the leather-wrapped steering wheel, shift knob, and leather-trimmed seats! Brilliant LED lighting treats your eyes. Real metal mesh grilles cover each of the 12 speakers of the Audio System from Sony. Even the glove compartment will delight you. It’s lighted, lined and lockable. Outside, slim sideview mirrors mount low on the door – designed to improve visibility, minimize drag, and help to reduce wind noise. On the SE Luxury Package and Titanium, they’re power, heated and auto-dimming, with security approach lamps, integrated LED turn signal indicators, and a convenient memory feature for up to 3 drivers. The 2013 Fusion. Taking sedan convention – and sweeping it aside.

1Available feature. 2Driver's side only.
Transforms every day

Hands-free calls and music.

In the all-new Fusion, your voice will be heard. Sound absorption material minimizes noise. Active noise cancellation\(^1\) uses the audio system to cancel road noise. In this hushed atmosphere, voice-activated Ford SYNC\(^2\) responds to your commands. Once paired, SYNC recognizes your phone and transfers your contacts to support voice calling. It also plays music from your phone, MP3, USB or iPod.\(^3\) Just touch a steering wheel button and say things like “Call: work” or “Play playlist: Favourites.” SYNC also includes 911 Assist\(^4\) with GPS location reporting.

To amplify your experience, upgrade to SYNC\(^2\) with MyFord Touch.\(^1,2\) An 8” LCD touch screen, media hub, 2 liquid crystal displays in the instrument panel, and familiar 5-way steering wheel controls give you mastery of your phone, entertainment, navigation\(^1\) and climate. The system recognizes over 10,000 voice commands – everything from “Destination: nightlife” to “Set temperature to 20 degrees.” There’s almost no limit to what you can do, all with your hands on the wheel and eyes on the road.

See who’s calling

MyFord Touch can download personal photos from your phone book and display them on its full-colour screen when you receive a call, place a call or browse your directory.

Split screens for easier navigation

Upgrade to the voice-activated Navigation System\(^1\) for interactive maps you can zoom and scroll – including 3D landmarks. You can even split the screen to see the route from a distance and up close.

Keep all in tune

Use voice commands to control your music from a media player, USB drive, portable hard drive or almost any device you plug into the MyFord Touch media hub. Stream Internet radio or music from your smartphone via Bluetooth.\(^5\) Upload a photo to the home screen. When in Park, you can even connect a video camera or other device to show off the footage of your recent trip.

Boundless entertainment

Listen to your favourites all across Canada with SiriusXM\(^4\) Satellite Radio.\(^4\) Your 6-month prepaid subscription gets you 100% commercial-free music from every genre, world-class news, sports, comedy and entertainment.

\(^1\)Available feature. \(^2\)Some mobile phones and some digital media players may not be fully compatible. Driving while distracted can result in loss of vehicle control. Only use SYNC/MyFord Touch/other devices, even with voice commands, when it is safe to do so.\(^3\)SYNC with MyFord Touch offers voice recognition and screens in English, French and Spanish. Some features may be locked out while the vehicle is in motion.\(^4\)Some features are only available when the vehicle is in Park. SiriusXM Satellite Radio subscriptions sold after 6-month prepaid period expires. Subscriptions are governed by SiriusXM Customer Agreement; see sirius.ca.
Delights your senses.

And sensibilities.

From the comforting white of the overhead light to the 7 vibrant hues of ambient lighting, LED illumination treats your eyes inside Fusion. Your ears will appreciate both the hushed quiet from acoustic underbody shields and sound-absorption material, as well as the rapturous output of the 12-speaker Audio System from Sony. Beyond that, your good sense will also be pleased. Fusion puts plastic bottles and other recycled materials usually destined for landfills to surprisingly practical reuse. Nearly 40 recycled 16-oz. plastic bottles go into select cloth-seat models, while recycled material is used for the injection-moulded splash shields and other underbody components. Whether you look, touch or listen, the impression is the same. Beautifully done.
Helps keep you in line. Even if you start to drift. 
If it detects Fusion drifting toward a lane marker, the Lane Keeping System is designed to alert you by shuddering the steering wheel, directing you to correct your path. If you continue to drift, Fusion applies torque to the steering wheel, alerting you to steer back toward centre. Drowsy drivers should promptly heed the warning of the Driver Alert System, which displays a coffee cup icon in your gauge cluster if it detects that you need to take a break from driving.

Detects traffic in your blind spots. 
While you’re driving, BLIS® (Blind Spot Information System) with cross-traffic alert is designed to alert you with an amber light in your sideview mirror whenever it detects traffic in your blind spots. And when you’re slowly backing out of a parking spot or driveway, it alerts you to vehicles approaching from either side with a sound, a message centre warning and the amber light.

Maintains your gap. 
By maintaining your preset gap from the vehicle in front of you, adaptive cruise control and forward collision warning with brake support helps reduce concerns about traffic. And, if it detects a potential collision, the system flashes a warning across your windshield, sounds an alarm, pre-charges the brakes and increases brake-assist sensitivity to provide full responsiveness when you do brake.

Makes waves. 
All over.

In addition to causing a stir in traffic, the all-new Ford Fusion utilizes radar waves to provide visual and audible feedback that can help you make the most of every drive. In addition, a sophisticated camera helps improve your rear view when backing up. Wipers that sense moisture activate at the first hint of rain to help keep your windshield clear. Heated sideview mirrors do the same by melting snow and ice buildup. AdvanceTrac® ESC (electronic stability control) with brake-actuated traction control helps Fusion avoid skidding and fishtailing—a benefit in many kinds of weather. From the narrow confines of city driving to the wide-open stretches of highway, you can be confident that Fusion is your ally on the road.

Available feature. BLIS replaces standard integrated blind spot mirrors. Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions. Driver-assist features are supplemental and do not replace the driver’s judgment.
Fulfills your desire for *individuality*.

There are many ways to make the all-new 2013 Ford Fusion your own. With a rear view camera, you can see objects behind Fusion as you slowly back up. An invisible keyless entry keypad on the driver’s door lights up as it senses your touch. Just enter your code and you’re in. Then, start Fusion without ever taking your keys out of your pocket with push-button start. Parents of teens can enable our standard MyKey™ to mute the audio if front safety belts are not fastened. And active park assist literally steers Fusion into the parallel parking spot it has recommended. Smart technology, put to very good use.

1Available feature.
SE in Ruby Red Metallic Tinted Clearcoat customized with 18" Sparkle Nickel-painted aluminum wheels, moulded splash guards, smoked side window deflectors and rear decklid spoiler
Illuminated door sill plates
Rear decklid spoiler
All-weather floor mats
Remote start systems

Exterior
- Rear bumper protector
- Racks and carriers¹
- Flat splash guards
- Wheel lock kit

Interior
- Ash cup/coin holder
- Auto-dimming rearview mirror
- Cargo organizers and protectors
- Carpeted floor mats
- Stainless steel door sill plates

Electronics
- Rear-seat DVD entertainment systems¹

¹Ford Licensed Accessory.
**FUSION Standard Features**

**Mechanical**
- 4-wheel disc Anti-Lock Brake System (ABS)
- Electric parking brake
- Electric power-assisted steering
- Torque Vectoring Control

**Interior**
- 12-volt powerpoints (3)
- Auxiliary audio input jack
- Driver and front-passenger sun visors with illuminated vanity mirrors
- Illuminated, lockable glove compartment
- Power door locks
- Power windows with global open/close and one-touch-up/down feature
- Steering wheel-mounted cruise, audio and 5-way MyFord™ controls

**Exterior**
- EasyFuel™ capless fuel filler
- Halogen projector headlamps
- Rear-window defroster
- Speed-sensitive windshield wipers

**Safety & Security**
- Personal Safety System™ for driver and front passenger includes dual-stage front airbags, safety belt pretensioners, safety belt energy-management retractors, safety belt usage sensors, driver's seat position sensor, crash severity sensor, restraint control module and Front-Passenger Sensing System
- Driver and front-passenger knee airbags
- Seatbelt pretensioners
- Driver and front passenger retractor and safety belt reminder
- AdvanceTrac® ESC (electronic stability control) with brake-actuated traction control
- Anti-theft alarm perimeter alarm
- Belt-Minder™ front safety belt reminder
- Child-safety rear door locks
- LATCH – Lower Anchors and Tether Anchors for Children
- MyKey®
- Passive Anti-Theft Engine Immobilizer System
- SOS Post-Crash Alert System™
- Tire Pressure Monitoring System (excludes spare)

**Equipment Group 100A**
- Includes all standard features, plus:

**Mechanical**
- 2.5L I-VCT 4-cylinder engine with 6-speed SelectShift Automatic transmission with shifter button activation
- Torque Vectoring Control
- Electric power-assisted steering
- Electric parking brake
- 4-wheel disc Anti-Lock Brake System (ABS)

**Interior**
- AM/FM stereo/single-CD player with MP3 capability and 4 speakers
- Cruise control
- Day/night rearview mirror
- Ford SYNC® voice-activated, in-vehicle connectivity system
- Front carpeted floor mats
- MyFord with 4.2” LCD display in instrument cluster and centre stack
- Single-zone manual air conditioning

**Exterior**
- 16” steel wheels with Sparkle Silv-painted covers and 215/60H16 all-season tires
- Automatic headlamps
- Black rocker mouldings
- Body-colour door handles
- Body-colour, power sideview mirrors with integrated LED turn signal indicators
- Single exhaust with bright tip

**Equipment Group 203A**
- Includes select S features, plus:

**Seating**
- 10-way power driver’s seat with power lumbar
- Rear-seat fold-down centre armrest with 2 cupholders

**Interior**
- AM/FM stereo/single-CD player with MP3 capability and 4 speakers
- Compass
- Outside temperature display
- Rear air conditioning ducts
- SiriusXM Satellite Radio with 6-month prepaid subscription

**Exterior**
- 17” Sparkle Silver-painted aluminum wheels with 235/55R17 all-season tires
- Body-colour, power, heated sideview mirrors with security approach lamps and integrated LED turn signal indicators
- Body-colour rocker mouldings
- SecuriCode™ invisible keypad

QUALITY, GREEN, SAFE AND SMART.

Our commitment to you: Peace-of-Mind Protection
- Basic Coverage: 3 years/60,000 km
- Powertrain Limited Warranty: 5 years/100,000 km
- Corrosion Warranty: 5 years/unlimited distance
- Roadside Assistance: 5 years/100,000 km

Your vehicle's unique hybrid/electric components are covered during the Hybrid/Electric Unique Component Coverage, which lasts for 8 years or 160,000 km, whichever occurs first.

The following hybrid parts are covered during this extended coverage period: high-voltage battery, hybrid continuously variable transmission, Inverter System Controller (ISC), DC/DC converter, high-voltage battery connector, battery pack fan assembly, thermistor probe, Hybrid Battery Pack Sensor Module (HBPSM), Battery Energy Control Module (BECM), and PHEV onboard charger.

NOTE: The Lithium-Ion Battery Gradual Capacity Loss
The lithium-ion battery (EV battery) will experience gradual capacity loss with time and use (similar to all lithium-ion batteries), which is considered normal wear and tear. Loss of battery capacity due to or resulting from gradual capacity loss is NOT covered under the New Vehicle Limited Warranty. See your Owner's Guide for important tips on how to maximize the life and capacity of the lithium-ion battery.

Certain conditions apply. For more information on these warranties and coverages, ask your local Ford of Canada Dealer or visit ford.ca.

Ford Extended Service Plan. Help protect your investment and add to your peace of mind by complementing your vehicle purchase or lease with a Ford Extended Service Plan (ESP). Ford ESP protects you against unexpected repair costs after your Basic Coverage in the New Vehicle Limited Warranty expires by covering many vehicle components. Enjoy the drive even more by complementing your ESP with a prepaid maintenance plan, which covers all required scheduled maintenance for your vehicle, plus 8 wear items. See your Ford of Canada Dealer for details.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your local Ford of Canada Dealer for details or check us out at fordcredit.ca.

Genuine Ford Accessories. Ford of Canada warrants that its authorized Dealers will repair or replace any Genuine Ford Accessory that is properly installed by the authorized Dealer that sold the accessory and found to be defective in factory-supplied materials or workmanship. The accessory will be warranted for whichever provides you the greatest benefit: 12 months/20,000 km (whichever occurs first), or the remainder of your 36-month/60,000-km (whichever occurs first) Basic Coverage in the New Vehicle Limited Warranty. Contact your local Ford of Canada Dealer for details.

Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer's limited warranty. The warranty coverage will vary by accessory manufacturer. Ford Licensed Accessories are fully designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your local Ford of Canada Dealer for details regarding the accessory manufacturer's limited warranty and/or for a copy of the FLA product limited warranty offered by the accessory manufacturer.

For prompt, courteous answers to your questions: Ford Customer Relationship Centre 1-800-565-3673; Ford Credit Customer Service Centre: 1-877-636-7346.

Competitive comparisons are based on 2012/2013 competitive models, publicly available information and Ford data at the time of printing of the 2013 original printed version. Some features discussed may be optional. Vehicles shown may contain optional equipment. Features shown may be offered only in combination with other options or subject to additional ordering requirements or limitations. Dimensions shown may vary due to optional features and/or production variability. Following publication of the 2013 original printed brochure, certain changes in standard equipment, options and the like, or product delays may have occurred which would not be included in these pages. Your Ford of Canada Dealer is your best source for up-to-date information. Ford Motor Company of Canada, Limited, reserves the right to change product specifications at any time without incurring obligations. Colours may not be exactly as illustrated. Please see your sales consultant for specific colour and model availability. Please visit your local dealer or ford.ca for complete vehicle details.
